

ECONOMIC FIGHTERS LEAGUE

PRESS RELEASE
8 April 2024

ANYONE EXCEPT NPP-NDC:
Fighters Welcomes
Movement For Change-National Interest Movement
Alliance

The Economic Fighters league has observed the unfolding developments in recent times as key members of the political status quo defect to form Movements and alliances with other political movements against the corrupt NPP-NDC dominated regime.

In this regard, we welcome the alliance between the National Interest Movement led by Dr. Abu Sakara and Alan Kyerematen's Movement for Change, against the duopoly going into the 2024 elections.

In our quest for inevitable but necessary change, we must recognize that our strength lies in our ability to come together, united in purpose and solidarity.

Joining forces is not merely an option; it is a necessity if we are to overcome the seemingly entrenched corrupt cabal of the duopoly and to create a lasting impact in our communities and nation.

Solidarity and collaboration are the cornerstones upon which any movement for change is built, and they are the keys to unlocking our collective potential.

As we join forces in solidarity and collaboration, let us remember that change is not a solitary endeavour but a collective journey. Let us embrace diversity, celebrate our shared humanity, and work together with passion, determination, and hope. And let us never underestimate the power of unity to transform our communities, our nation, and our world at large.

Our press release issued on 2nd April 2024 encourages all Ghanaians to organise and establish such alliances with Movements against the duopoly.

The defeat of the duopoly in the upcoming election is our last opportunity to rescue and rebuild our nation for our children and generations unborn.
