

FOR IMMEDIATE RELEASE

Date: October 31, 2025

THE DOMBOS CONTINUE TO STAND WITH DR. BAWUMIA

In Defense of Vision and Character

While the outcome of the 2025 presidential election was nothing short of undesirable, the Dombo family remains unwavering in our support for H.E. Dr. Mahamudu Bawumia. His vision, resilience, and commitment to the development of Ghana continue to inspire not only our family but also countless Ghanaians across the nation.

The level of composure and mental resilience Dr. Mahamudu Bawumia continues to show, especially in the face of challenges, is nothing short of remarkable. His calm, clarity, and grace under pressure are the markings of a true leader.

Let's be clear, this isn't about tribal allegiance or sentimental loyalty. It's about logic. It's about what makes sense. To suggest that a northerner cannot and should not lead the New Patriotic Party is not only shortsighted but also hypocritical and insulting to the very history of the party we claim to protect. Such utterances tear at the moral fabric of the Busia-Dombo tradition, a legacy built on inclusion, merit, and service above all.

Our support for Dr. Bawumia is grounded purely in merit. It's a belief in his superior vision, one that reaches beyond politics and speaks directly to the soul of a nation yearning for transformation. We are not impressed by wealth or noise but by value, by what a leader can add to our collective story, by the lives they can touch, and by the doors they can open for generations yet to come.

Dr. Bawumia's plans are not about today's applause but tomorrow's inheritance. His ideas are built to outlive us all, to shape an unrecognizable Ghana, one defined by innovation, dignity, and shared prosperity. The kind of leadership that is worthy.

As delegates prepare to cast their votes, we have only one plea: that they look beyond the theatrics and the handshakes lined with cedis. Examine the hearts, the minds, and above all,

the motives of those who seek your trust and support. Do some introspection as to who best embodies the values of the great NPP tradition, who leads with integrity, intellect, and intent.

Dare to resist the temptation of those who throw money at problems because they have no real solutions. History remembers those who stood on conviction when convenience was cheaper. Let's choose substance over spectacle, purpose over pride, and be found on the right side of history.

This we say sincerely, unincentivized and heartfelt plea to want more for ourselves and everyone after us.

Signed:

Tracy Rabiatsu Dombo
