

CHINESE TECHNOLOGY GIANT BLACKVIEW LAUNCHES IN GHANA WITH AN OFFICIAL BRAND STORE OPENING

Chinese technology giant Blackview launches in Ghana with an official brand store opening, bringing its range of rugged smartphones, smart devices, and after-sales support closer to Ghanaian consumers.

Blackview Ghana officially launched its first offline store on Tuesday 14th and Wednesday 15th July, 2026 at Madina behind the Old Melcom Building, marking a major step in bringing durable, innovative, and affordable technology closer to customers in Ghana.

The launch introduced consumers to the full range of Blackview products, including rugged smartphones, smart devices, tablets, laptops, wearables, and accessories designed for performance, reliability, and everyday use. Blackview Ghana aims to provide customers with genuine products, trusted warranty support, and easy access to the latest technology.

The new official store will serve as a convenient destination for individuals, businesses, students, and professionals looking for dependable devices that combine quality and value. From rugged phones built for tough environments to smart wearables and productivity laptops, Blackview Ghana continues to expand its presence in the market with products that meet modern lifestyle and work needs.

The public are encouraged to stay tuned for more updates. For more information, kindly visit our showroom at Madina behind the Old Melcom Building or Call/WhatsApp 0205443408 or email sales@blackviewghana.net
